

Dear Sir/Madam,

## Important information – forthcoming notice of phased road closures on various roads – North Cadbury – April to June 2026

This letter is to inform you that Wessex Internet is currently in the process of building a network to bring full fibre broadband to North Cadbury. To complete this build safely, we need to put road closures in place while we carry out essential work on various roads during the dates below.

**Work will commence from 20<sup>th</sup> April until 5<sup>th</sup> June;** the roads will be closed 24 hours of the day for the duration of the permits. If safe to do so, the roads will be open outside of working hours but due to open excavations this may not be possible. **Please see map overleaf for the dates of each phase and details of the road closures, including the diversion routes.**

Please be assured that we aim to work as efficiently and respectfully as possible whilst delivering your broadband. **Direct access for residents and businesses will be maintained where possible but on occasion may be via our diversion route.**

There may be a slight interruption as we move equipment or lay down specialist boards for vehicles to drive over or at times you may be diverted from one end of the closure to the other depending on the location of excavations. Road closures are in place to ensure the safety of the workforce as well as residents.

Signed diversions must follow roads of the same or higher classification than the closed route unless exceptional circumstances are agreed upon.

The relevant permit reference numbers granted by Somerset Council are: J400584822538, J400583103487, J400698892246, J400540626010, J400579825112, J400577020632 and J400272867905

We appreciate your patience and understanding while these essential works are carried out, and we apologise in advance for any inconvenience caused.

If you have any further queries regarding our road closures, please see the list of FAQs provided. Should you wish to contact us directly, please call us on 0333 240 7997.

For updates on our progress or to register your interest in our services, please visit [www.wessexinternet.com](http://www.wessexinternet.com).

Kind regards,

The Wessex Internet Team
